'end to end collar manufacturing'

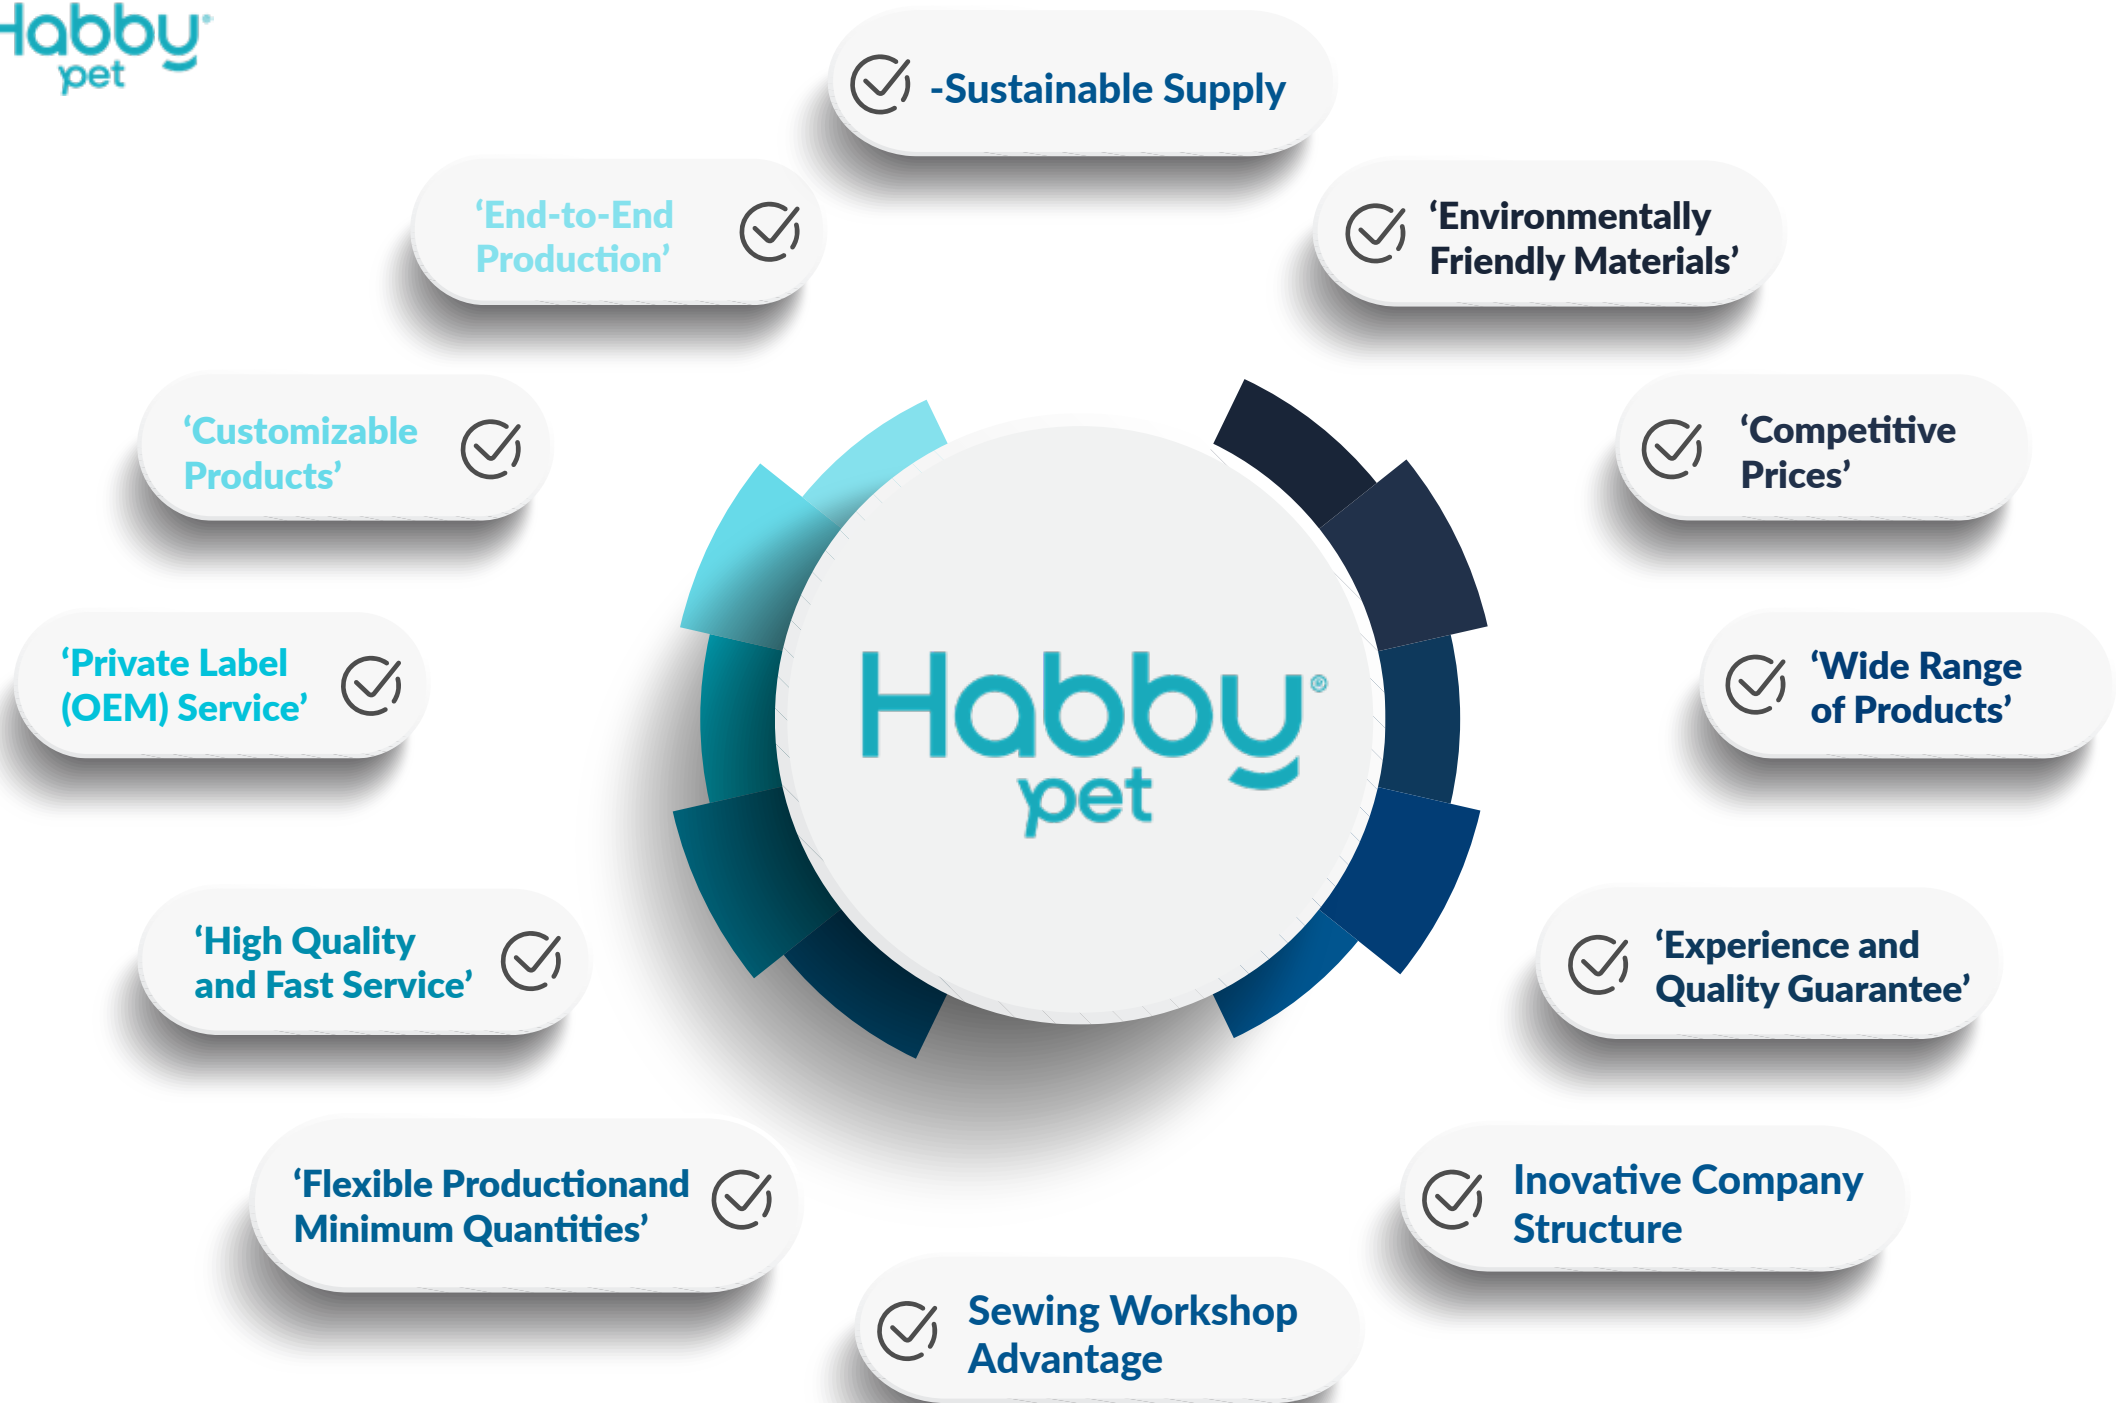

ABOUTUS

Habby Pet is a leading brand that sets out to make your pets' lives more comfortable and enjoyable, offering high quality and environmentally friendly products. Our story begins with Tekin Dar Tekstil, which has a deep-rooted history, stepping into the narrow weaving sector in 1996. This beginning started three years ago by making intermediate materials such as straps, cords and elastics that we produce value-added and innovative. When we started this journey, we identified customer needs and created a suitable infrastructure to fulfil our need for a sewing workshop to finalise the materials we produce and the intermediate materials needed (plastic and metal accessories, printed straps), thus creating a sustainable supply network.

At the point we have reached, we have captured the variety of straps used in collar production and the variety of plastic and metal accessories with our own moulds. Our aim is to meet the material needs of leash manufacturing companies and at the same time to produce customisable, innovative and sustainable collars for companies selling finished collar products. We are committed to long-term cooperation with our valued customers with our fast delivery times, high quality and durable materials, 100% handcraftsmanship, customisable services, innovative structure, product development capabilities and end-to-end (E2E) production approach. Our aim is to ensure that our customers are completely satisfied with our products and services that we manufacture in accordance with world standards and certified.

As Habby Pet, we are committed to providing the highest quality products for the health, happiness and safety of your pets. We constantly strive to make the lives of our customers and our pet friends more comfortable and enjoyable.

end to end **MANUFACTURING**

' From Start to Finish, Crafting Sustainability: Our Commitment '

Collar Strap

- As Habby Pet, we manufacture high quality collar straps. We produce our products from yarns such as recycled, industrial and regular polyester, polypropylene and nylon.
- With many years of experience, we are one of the leading collar strap manufacturers in the industry.
- Each collar strap is carefully manufactured from the highest quality materials. We produce our products with our certificates in accordance with world standards.

Plastic and Metal Accessories

- As Habby Pet, we manufacture plastic and metal accessories using our own moulds.
- We are committed to sustainable supply with customized plastic and metal accessories and can complete collar production according to your request.
- Our plastic and metal accessories are made of high quality materials, highly durable, long lasting and tested.

Sewing Workshop

- In our sewing workshop, we are able to finish our high quality raw materials into collars based on quality, durability and 100% hand workmanship.
- Thanks to our innovative structure, we are open to current products and have the capacity to produce customized collar products according to customer requests.
